

# A Uniquely Innovative Approach to Senior Living

Le King David is a warm, friendly and inviting independent living residence for seniors. Ideally situated in a quiet residential community in Cote St Luc, next to a park and within walking distance of shopping, it is recognized for years of excellence in service and resident satisfaction. What is truly unique about Le King David, is its appeal to residents who choose to enjoy a vibrant independent lifestyle with optional care available, if required.

Most residences, suffering the after effects of COVID, with care service staff shortages and rising costs, have chosen to cut servicing and rebrand as, “retirement communities”. Any services, which are made available, are provided at a higher cost and outsourced to external private agencies. Le King David, on the other hand, has been fortunate to retain its resilient and dedicated staff, causing it to stand out, as a leader in providing professional discreet care services, to its residents.

Not everyone needs care from the outset, but once it is apparent that the resident could benefit from additional care, available progressive care options are discussed with family members. Services are scheduled and performed discreetly and professionally, at the resident’s convenience, to eliminate stress while promoting good health and longevity. Le King David’s goal is to retain each resident’s autonomy for as long as possible.

Andy Rooney, once remarked “It’s

paradoxical that the idea of living a long life appeals to everyone, but the idea of getting old doesn’t appeal to anyone.” In essence, this quote, reflects the Le King David philosophy that age is circumstantial and life is celebrated everyday.

Nothing is more gratifying than observing a loved one, especially a senior who may have previously been living alone, now, actively enjoying a variety of activities and vigorously pursuing new interests. Le King David provides families with peace of mind to rest assured that their loved ones are well taken care of, in a warm and nurturing environment that is ideally suited to each resident’s particular needs.
